

# Agile AI University

## Governance Record: Public Credential Verification System

Record ID: GR-2026-02

Version: v1.0

Status: PRODUCTION STABLE · GOVERNANCE LOCKED

Date Locked: 24 February 2026

---

## # 1. Structured Naming Convention

All governance records shall follow the format:

GR-YYYY-MM-Topic-vX.Y

Example:

GR-2026-02-Verification-v1.0

Where:

- GR = Governance Record
- YYYY = Year
- MM = Month of Freeze
- Topic = Functional domain
- vX.Y = Version number

---

## # 2. Formal Record Numbering Framework

Governance Records are categorized as:

GR = Governance Record (system freeze / architectural decisions)

AR = Architecture Record

SR = Security Record

FR = Financial Record

PR = Policy Record

Numbering format:

----v

Sequential numbering restarts each year.

---

# 3. Master Governance Index (Initial Baseline)

GR-2026-01 – Credential Governance Core Framework

GR-2026-02 – Public Credential Verification System (This Record)

Future records must be appended to this index in chronological order.

---

# 4. Architecture Summary

Frontend:

verify.agileai.university

Verification Client v3.0

Backend:

Cloud Run (Node.js / Express)

Endpoint: POST /public/verify-credential

Database:

Firestore (Single indexed read per verification)

Cost Discipline:

- 1 read per verification
- 0 writes
- No audit document creation
- Logging via Cloud Run only

---

## # 5. Security Controls

- Server-side reCAPTCHA validation
- Express rate limiting (50 req / 15 min / IP)
- Restricted CORS origins
- No public admin exposure
- No Firestore direct access

---

## # 6. Explicitly Deferred Features

The following are intentionally excluded:

- Enterprise audit export

- Signature verification for employers
- Suspicious activity dashboard
- Adaptive rate limiting
- Cloud Armor integration
- Monetized verification routing

---

## # 7. Governance Freeze Rule

The system is frozen under the following rules:

- Only bug fixes permitted
- No architectural expansion without governance review
- No monetization coupling without strategic approval
- No scope creep

---

## # 8. Institutional Alignment

The verification system:

- Confirms issuance status only
- Does not certify employment suitability
- Operates as a factual validation layer
- Remains non-transactional

---

DECLARATION:

As of 24 February 2026, the Public Credential Verification System is formally declared:

ARCHITECTURALLY FROZEN

COST DISCIPLINED

GOVERNANCE LOCKED

PRODUCTION SAFE
