

# AGILE AI UNIVERSITY

## System Context & Governance Pack

Version 1.1

Date: 11 February 2026

Date: 11 February 2026

---

Agile AI University (AAU) operates as an independent academic and professional body.

The institution provides advisory, interpretive, and analytical capability reports.

**\*\*Explicitly Not Provided:\*\***

- Training claims
- Hiring evaluation claims
- Certification-for-employment claims

Executive Insight Reports are:

- Advisory
- Interpretive
- Non-certifying
- Non-hiring evaluative

---

- GitHub Repository
- GitHub Pages deployment
- /docs as publishing root
- Custom domain: learn.agileai.university
- Portal (Firebase / Cloud Run)
- Admin
- Certificates
- Assessment system (public-assessment)
- Credential issuance model
- robots.txt hardened

- XML sitemap deployed
- Google Search Console Domain Property verified
- HTTPS enforced

---

- 25-question model (Finalized)
- No question changes allowed without version upgrade
- Scoring logic frozen
- Report.html = Free Orientation Report
- executive-insight.html = Paid Advisory Report

Golden Rule:

Free = Orientation

Paid = Decision Support

---

Executive Insight Access Condition:

sessionStorage key → execInsightUnlocked === "true"

Direct access to executive-insight.html is blocked.

Session-based access is intentional.

---

- Explicit allow/disallow policy
- AI crawler transparency
- Sitemap declaration
- URL Prefix Property (learn.agileai.university)
- Domain Property (agileai.university)
- TXT DNS verification record active

---

Two-Layer Credential Model:

- Public Verification Layer
- Institutional Registry Layer

Program Code AOP:

Agile Outcome Practitioner

Planned mapping → Artificial Intelligence Professional Agilist (AIPA)

Program code binding is irreversible once batch created.

---

- No default program selection
- Mandatory confirmation modal
- Irreversible binding warning

---

No public release unless:

- Checklist fully validated
- Access control verified
- DNS stable
- HTTPS enforced
- Sitemap validated

No shortcuts.

---

- GitHub Pages live
- Custom domain active
- HTTPS enforced
- Sitemap submitted successfully
- Domain property verified
- DNS propagation confirmed

---

Any change to:

- Assessment questions
- Entitlement logic
- Institutional positioning
- Credential model
- Governance structure

Requires new Governance Pack version.

---
