

Agile AI University

Architecture Diagram Appendix

Version 1.0

System Lock Date: 11 February 2026

This appendix documents the institutional architecture of Agile AI University (v1.0). It captures the following locked architectural layers:

1. Public Learning Surface (GitHub Pages – learn.agileai.university)
2. Assessment Engine (25 Locked Questions, Deterministic Scoring)
3. Executive Insight Report – Phase 2 (Paid Advisory Layer)
4. Credential & Registry System (Firebase + Locked CSV Governance)
5. Admin + User Portal Layer (portal, admin, certs, IAM)

This diagram reflects the locked governance, access control, domain configuration, and execution model as of the official system lock date.
